PRO BALL TURF

BENEFITS

Typically used for baseball applications, Pro Ball turf is one of our most popular and versatile surfaces. Since there is no need for infill, it's a great choice for indoor and portable applications, and with seven standard color choices, and custom colors available upon request, this is a great choice for locker rooms and agility and training facilities as well.

It is the policy of Synthetic Turf International to continuously improve their line of products. Therefore, Synthetic Turf International reserves the right to change, modify or discontinue systems, specifications and accessories of all products at any time without notice or obligation to purchaser. These are standard specifications subject to manufacturing tolerances and consumer requests.
